BALZA

Taking an inspiration from a rock-hard cliff, Balza represents borderless freedom and adventure of life in nature. Its monochromatic colors reflect a solitude and durability of a steep rock to withstand any natural impacts.

This series of fine porcelain stoneware was created by harmoniously fusing a natural pattern of natural-cut granites with three chromatic granules; Chalk, Ash, and Carbon. Its surface recalls the flamed natural stone slab which delivers delicate movement and sense of touch to all ambiances. Balza is a prime series designed for all areas, from interior to exterior, of modern architecture.

Balza is available in various sizes from 40x80, 80x80, to 80x180 cm. among which you can choose the one that best fits your specific need.

NEO BASALT

This series is inspired from a revival of ancient Pompeii which was devoured by layers of volcanic basalt from a legendary eruption of Mont Vesuvius. Combining a distinctive texture of basalt with earth-tone colors of 21st century, Neo Basalt expresses a classic touch of natural stone with a sense of modern living.

The selection of six colors, two sizes, and three surfaces of Neo Basalt will raise functional and emotional value to any architecture by creating a balanced space of simplicity and flexibility, and broadening possibilities to your creativities.
